

Corporate Capabilities

Scope Infotech, Inc. is a CMMI® Maturity Level 3 for Development rated, highly motivated software engineering company established in 2007. We focus on delivering solutions that translate complex requirements, policies and legislation into easy to use, robust and scalable systems for our customers' needs.

Scope Infotech has worked on a full range of development services for a wide range of systems using multiple technology platforms and methodologies. Our organization has specialized in delivering solutions for the Department of Health and Human Services' (HHS), Centers for Medicare and Medicaid Services (CMS).

Participation in projects involving the latest legislation has enabled Scope Infotech to gain detailed understanding of the practical experience with policies and technology of contemporary healthcare.

Delivering IT solutions for modern healthcare requires extensive coordination with many federal, state and local government agencies, as well as several commercial entities. Scope Infotech's track record for managing our projects in these integrated environments demonstrates our commitment to meet required timelines and desired outcomes.

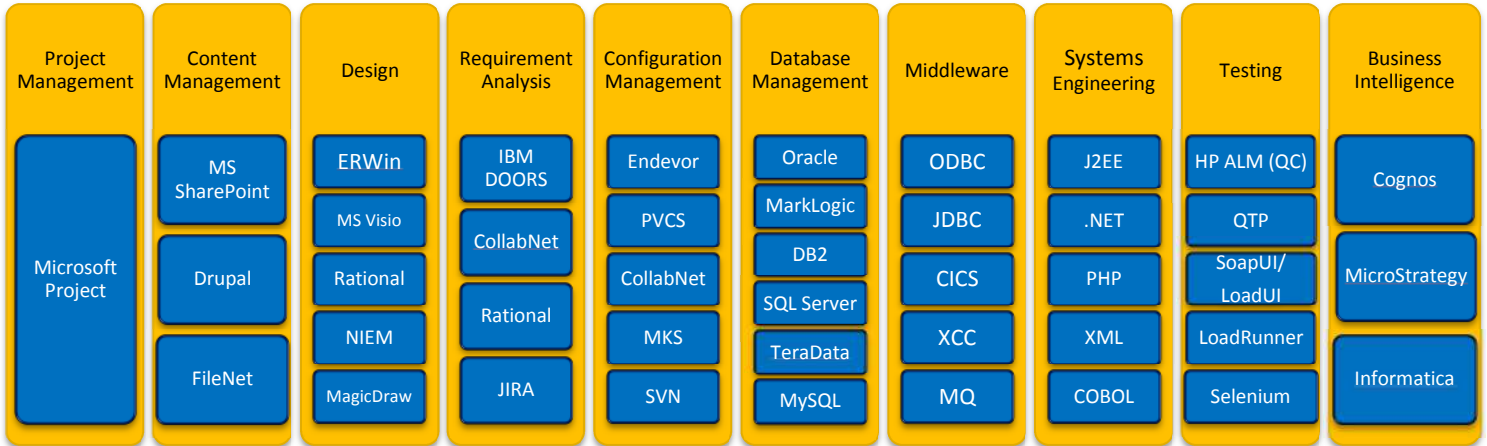

Scope Infotech is a CMMI ML 3 rated, certified 8(a) SDB, holding a GSA IT Schedule 70 contract under SIN 132-51

Scope Infotech understands the importance of Federal Enterprise Architecture Frameworks (FEAF) and standards in systems engineering, and utilizes them in all Scope Infotech deliveries.

Scope Infotech's team includes self-driven, motivated Solutions Experts who understand the strategic goals of our clients, and are prepared to support our customers in achieving success.

Examples of technologies used on Scope Infotech projects

Scope Infotech's extensive experience delivering large-scale, multi-year projects, providing services combined with industry best practices, standard development methodologies and frameworks gives customers confidence in our ability to deliver high quality solutions on-time and within budget.
